Curtiss-Wright Recognized for Cyber Security

Curtiss-Wright's Letchworth, UK Facility awarded Cyber Essentials Plus Certificate of Compliance

ASHBURN, Va. – March 2, 2020 – Curtiss-Wright's Defense Solutions division, a proven leading supplier of deployed [video management solutions](#), today announced that its Letchworth, UK facility (Primagraphics DBA Curtiss-Wright) has been awarded the Cyber Essential Plus Certificate of Compliance following a successful independent assessment against the [Cyber Essentials Standard](#). Cyber Essentials is a UK government information assurance scheme operated by the National Cyber Security Centre (NCSC) that encourages organizations to adopt good practice in information security. The Certificate certifies that Curtiss-Wright's facility was assessed as meeting the Cyber Essentials implementation profile (BIS/14/696/1.5) and that its Information and Communication Technology (ICT) defenses were assessed as satisfactory against commodity based cyber-attack at the time of testing. Curtiss-Wright worked with an award winning information security and risk management company, Risk Factory, to gain the certification.

"We are very pleased to have been awarded the Cyber Essentials Plus Certificate, which recognizes the importance that Curtiss-Wright places on protecting client data from misuse and cyber attacks," said Lynn Bamford, President, Defense and Power. "Cyber Security is an ever increasing concern for customers, potential customers, and suppliers, and the rigorous testing and implementation process required by the Cyber Essentials program ensures that our data security program is at the highest level."

For more detailed information on the Cyber Essentials Plus program see:
