### **Curtiss-Wright Defense Solutions Honored by 2018 Military & Aerospace Electronics Innovators Awards Program**

***Curtiss-Wright honored with four Innovators Awards, including two Platinum and two Gold, for its Axon Miniature Data Acquisition Unit, HSR40 High Speed NAS Data Recorder, VPX3-1260 3U VPX Single Board Computer, Rugged Video Gateway Range***

ASHBURN, Va. – November 13, 2018 -- [Curtiss-Wright's Defense Solutions division](#) today announced that four of its products were recognized by the judges of the annual Military & Aerospace Electronics Innovators Awards program. The winning products and award levels are:

**Platinum:**

- [Axon Miniature Data Acquisition Unit](#)
- [HSR40 High Speed Network Attached Storage \(NAS\) Data Recorder](#)

**Gold:**

- [VPX3-1260 3U VPX Single Board Computer](#)
- [Rugged Video Gateway Product Range](#)

The judging panel consisted of senior third-party expert professionals.

"We are very proud to have four of our industry-leading products selected for recognition by the judges of the Military & Aerospace Electronics Innovators Awards," said Lynn Bamford, Senior Vice President and General Manager, Defense Solutions division. "This honor is testament both to the expansive range of our product offerings and to the commitment we've made to bring high quality, highest performance and most cost effective open architecture solutions to the embedded COTS market."

Alan Bergstein, publisher of *Military & Aerospace Electronics* ([www.militaryaerospace.com](http://www.militaryaerospace.com)), said, "This prestigious program allows Military & Aerospace Electronics to celebrate and recognize the most innovative products and services in the military electronics industry. Our 2018 Honorees are an outstanding example of companies who are making an impact."

"Our technology innovation awards are trying to highlight real solutions to difficult design problems, rather than simply showcase promising new products, and Curtiss-Wright has stepped up with technology that systems designers can really use," said John Keller, chief editor of *Military & Aerospace Electronics*. "We're looking forward to next year for additional defense electronics suppliers to step forward with technology solutions."

The Innovators Awards are judged based on the following criteria:

- Innovation
- Value to the User
- Sustainability
- Meeting a Defined Need
- Collaboration
- Impact

The 2018 Military & Aerospace Electronics Innovators Awards Honorees are featured in the November Issue of *Military & Aerospace Electronics* magazine as well as on [www.militaryaerospace.com](http://www.militaryaerospace.com).

#### **About Military & Aerospace Electronics**

Published since 1990, *Military & Aerospace Electronics* delivers time-sensitive news, in-depth analyses, case studies, and real-world applications of new products, industry opinion, and the latest trends in the use of mil-spec, rugged and commercial off-the-shelf components. The Military & Aerospace Electronics brand includes the magazine, website ([www.militaryaerospace.com](http://www.militaryaerospace.com)), email newsletters and webcasts.

#### **About The Military & Aerospace Electronics 2018 Innovators Awards program**

The Military & Aerospace Electronics Innovation Awards celebrates the most innovative applications of aerospace and defense electronics technology products and systems. Awards are presented to organizations that demonstrate excellence in the use of a product or system. Submissions are accepted from designers and integrators, and users of military and aerospace electronics systems.
