### **Curtiss-Wright Defense Solutions Honored by 2019 Military & Aerospace Electronics Innovators Awards**

***Curtiss-Wright honored with five Innovators Awards, including one Platinum and one Gold, for HUNTR™ TDL Hub and Network Translator, V3-1703 NXP Layerscape LS1043A Quad A53 SBC, UNS Unattended Network Storage system, TTC nREC-7000 10GbE Airborne Network Flight Test Recorder and RVG-MS1 Multi-Sensor Rugged Video Gateway***

**ASHBURN, Va. – December 5, 2019** – Curtiss-Wright’s Defense Solutions division today announced that five of its products were recognized as among the best by the 2019 Military & Aerospace Electronics Innovators Awards. An esteemed and experienced panel of judges from the aerospace and defense community recognized Curtiss-Wright as a Platinum, Gold, and Silver honoree.

"We are very proud that five of our industry-leading products were selected for recognition by the judges of the Military & Aerospace Electronics Innovators Awards, the third year in a row that we've been honored," said Lynn Bamford, Senior Vice President and General Manager, Defense and Power. "This achievement reflects our ongoing commitment to serve the embedded COTS industry as a proven leading supplier of innovative solutions."

"On behalf of the Military & Aerospace Electronics Innovators Awards, I would like to congratulate Curtiss-Wright Defense Solutions on their Platinum, Gold, and Silver-level honoree status," said Military & Aerospace Electronics Editor in Chief John Keller. "This competitive program allows Military & Aerospace Electronics to celebrate and recognize the most innovative products impacting the aerospace and defense community this year."

Curtiss-Wright's award winning products and award levels are:

**Platinum**

- [HUNTR™ TDL Hub and Network Translator](#)

**Gold**

- [V3-1703 NXP Layerscape LS1043A Quad A53 Single Board Computer](#)

**Silver**

- [UNS \(Unattended Network Storage\) Rugged Network Attached Storage \(NAS\) system](#)
- [TTC nREC-7000 10GbE Airborne Network Flight Test Recorder](#)
- [RVG-MS1 Multi-Sensor Rugged Video Gateway](#)

The 2019 Military & Aerospace Electronics Innovators Awards Honorees are featured in the December Issue of Military & Aerospace Electronics magazine as well as on [www.militaryaerospace.com](http://www.militaryaerospace.com).

**About Military & Aerospace Electronics**

Military & Aerospace Electronics is the leading media resource serving program and project managers, engineering managers, and engineers involved in electronic and electro-optic design for military, space, and aviation applications.

Military & Aerospace Electronics magazine delivers time-sensitive news, in-depth analyses, case studies, and real-world applications of new products, industry opinion, and the latest trends in the use of mil-spec, rugged and commercial off-the-shelf components, subsystems, and systems.

**About The Military & Aerospace Electronics 2019 Innovators Awards program**

The Military & Aerospace Electronics Innovation Awards celebrates the most innovative applications of aerospace and defense electronics technology products and systems. Awards are presented to organizations that demonstrate excellence in the use of a product or system. Submissions are accepted from designers and integrators, and users of military and aerospace electronics systems.
