# DTS1 Data Transport System
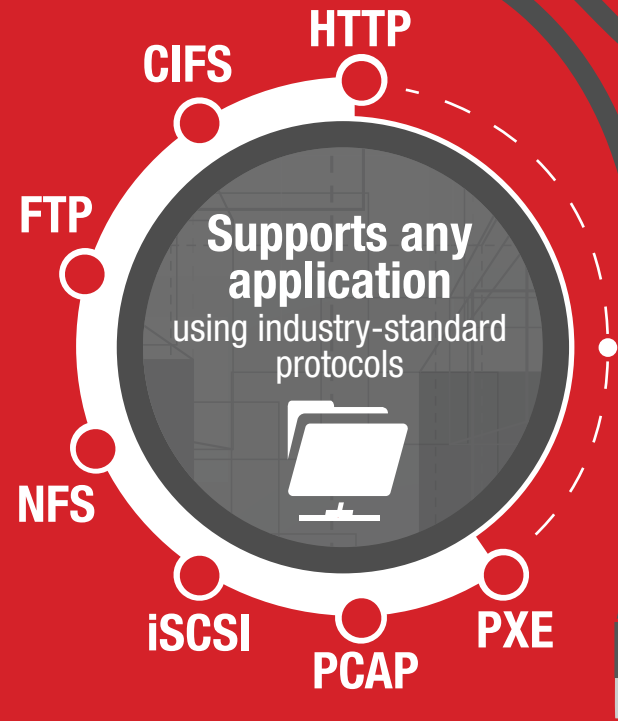

## A DTU Replacement with Encryption

Develop a **net-centric system** with two 1Gb Ethernet ports

Eliminate **client storage** with support for network booting

### Supports any application
using industry-standard protocols

- HTTP
- CIFS
- FTP
- NFS
- iSCSI
- PCAP
- PXE

### Advanced COTS encryption

2 Common Criteria certified encryption layers (Hardware and Software Full Disc Encryption)

2 layers of AES256 bit encryption

**4x Storage**

### Up to **4TB** of storage
Offload data quickly with a single rugged Removable Memory Cartridge

3.8cm

16.5cm

12.7cm

# 65%
reduction in size compared to existing DTUs

**1.36 Kg**

**15 Watts**

**Weight** and **power** optimized
