### **CURTISS-WRIGHT RECEIVES SUPPLIER QUALITY PERFORMANCE AWARDS FROM RAYTHEON**

*Curtiss-Wright Defense Solutions earns Raytheon Integrated Defense Systems' top supplier quality award for fourth straight year*

**ASHBURN, Va. – June 27, 2017** – Curtiss-Wright's Defense Solutions division today announced that, for the fourth year in a row, it was recognized by Raytheon Integrated Defense Systems (IDS) for outstanding supplier quality performance. Raytheon IDS awarded one Defense Solutions facility with its 5-Star Supplier Award for their performance during the 2016 calendar year, the highest level of recognition an IDS business supplier can achieve for excellence in quality and performance. A second Defense Solutions facility was recognized with a 4-Star Supplier Award. Curtiss-Wright was specifically recognized for its ability to maintain 100% on-time delivery, 100% quality assurance and sustainable continuous improvement processes. The 5-Star Supplier Award, which was earned by 24 of Raytheon's thousands of suppliers, is based on impeccable Quality and Delivery performance and a solid partnership in support of the warfighter.

"Curtiss-Wright is extremely proud to be able to say, for the fourth year in a row, that we have been recognized by Raytheon, one of our most respected strategic industry partners, with their prestigious 5-Star Supplier Award, and we sincerely thank them for this honor," said Lynn Bamford, Senior Vice President and General Manager, Defense Solutions division. "To meet Raytheon IDS's high standards for supplier excellence is an awesome achievement in any year, and for us to have accomplished this level of recognition for three straight years in a row, and at multiple facilities this year, truly spotlights the tremendous focus our Quality and Operations teams place on customer satisfaction. It also clearly demonstrates our commitment to delivering the highest quality, on-time, with an ongoing dedication to continuous improvement."

The Curtiss-Wright Defense Solution facility recognized by Raytheon with their 5-Star Supplier Award for 2016 is the Dayton, Ohio facility, which manufactures Curtiss-Wright's commercial-off-the-shelf (COTS) Data Solutions products. The Kanata, Ontario, Canada facility, which manufactures COTS modules, including single board computers, networking and graphics cards, was recognized with the 4-Star Supplier Award.

**About Raytheon IDS's Supplier Excellence Awards**

Raytheon's IDS business instituted the annual Supplier Excellence Awards program to recognize suppliers that have provided outstanding service and partnership in exceeding customer requirements. Award candidates are judged on criteria, including overall quality, on-time delivery and demonstrated commitment to continuous improvement.
