Curtiss-Wright Supports 2024 Embedded Tech Trends Conference as a Sponsor and Presenter

Annual conference brings together leading suppliers of embedded systems, subject matter experts and international media

ASHBURN, Va. – January 23, 2024 – Curtiss-Wright's [Defense Solutions Division](#) is serving as a sponsor of the [2024 Embedded Tech Trends \(ETT\) Conference](#), January 22-23, 2024, in Fort Lauderdale, Florida. ETT is an industry-wide forum where suppliers of component, board and system level solutions and members of relevant industry media come together to discuss technologies, trends, and products.

During this important embedded industry conference, Curtiss-Wright subject matter experts will provide two presentations: Aaron Frank, Senior Product Manager, will speak about "Cores & Threads: Understanding Hybrid Processors for Today's Multitasking World" (8:40-9:00 am, Tuesday, January 23); and David Jedynek, VP Strategic Planning, will speak on the topic, "A Bigger Tent: Expanding VITA into Broader Markets" (11:40 am-12:00 pm, Tuesday, January 23).

"We are proud to once again serve as a sponsor for VITA's Embedded Tech Trends Conference," said Brian Perry, Senior Vice President and General Manager, Curtiss-Wright Defense Solutions. "The importance of open architectures has never been

greater, both in the defense industry and beyond. In recent years, suppliers of embedded systems based on OpenVPX™, which is managed by the VITA Standards Organization, have seen this proven open standard become embraced as the hardware foundation of some of today's most important technology initiatives including SOSA, CMOSS and CMFF. ETT provides a unique forum for industry and leading journalists to meet and help further a better understanding of how open standards help speed new capabilities to the field.”
